#### **EX PARTE QUAYLE**

## Specification

1. The disclosure is objected to because of the following informalities:

Throughout the specification there are chemical formulas that are unclear. For example on page 27 in the reaction, on pages 29-30 in the formulas and in the tables on pages 133-134. Please note that the lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Appropriate correction is required.

### Allowable Subject Matter

- 2. Claims 93-169 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: applicant has discovered a novel process for making a variety of compounds using an organosilcon reagent and cross coupling it with organic electrophile in the presence of a basic and nucleophilic activator anion and a Group 10 metal catalyst. The process is not taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### Conclusion

4. This application is in condition for allowance except for the following formal matters:

Only minor corrections of the specification are needed to put this case in condition for allowance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.
